THE AMERICAN LAW OF REAL PROPERTY 1902

WRITTEN BY EMORY WASHBURN, Bussey Professor of Law, Harvard.
EDITED with exhaustive and up-to-date annotations by JOHN WURTS,
Professor of Real Property Law at Yale.

COMPLETE in its Plan and Treatment.

AUTHORITATIVE in its statement of the Law.

THOROUGHLY REVISED, it continues to be the best book upon the subject.

The large editions and important changes made by Professor Wurts, in order to make the book thoroughly present the American Law of Real Property as it is to-day, have rendered it necessary to entirely reset the whole work, making it rather *a new book* than a new edition.

The work in every way has been most carefully done, editor and printer co-operating to put before the profession this standard work in a manner worthy of its high reputation, and one calculated to make it still more the one *indispensable book on real property*.

"His work has almost superseded every other and stands quite without a rival."
—Hon. John F. Dillon.

THREE VOLUMES. 8VO, LAW SHEEP. PRICE, \$18.00, NET.

A TREATISE ON GUARANTY INSURANCE

INCLUDING THEREIN AS SUBSIDIARY BRANCHES.

THE LAW OF FIDELITY, COMMERCIAL AND JUDICIAL INSURANCES.

Covering all forms of Compensated Suretyship, such as Official and Private Fidelity Bonds, Building Bonds, Court Bonds, Credit and Title Insurances.

By THOMAS GOLD FROST, Ph. D.

OF THE NEW YORK BAR.

The author presents both the theory and practice of all branches of guaranty insurance. He has studied the decisions as they are to-day, deducing from them the rules and principles which make the present law. For many years he has dealt with cases involving contracts of guaranty insurance.

The sections of the book are numbered continuously, catch-words are in full-faced type, references are made to the "Reporters" as well as to the official reports, about 400 cases are cited, and a carefully made Index of subjects is included.

"It directs the attention of the lawyer who is seeking authority to the ruling case, which exhaustively discusses the principle, instead of citing him to a large number of cases in which the point may be but collateralily touched, and which have but remote relation to the principle being investigated."

THOMAS A. MORAN,
Dean Chicago College of Law; Ex-Judge
Appellate Court.

"For succinctness and accuracy in expression it is unrivaled, and a feature of special note is (1) in the selection and analysis of leading authorities and (2) the clearness of definitions evolved. The text is sure of citation in future reports and the book will be needed in every law office."

ANDREWS' AMERICAN LAW

By James DeWitt Andrews.

"I know of no other work which covers the same field."
MR. JUSTICE BREWER.

"It is the first serious attempt on this side of the Atlantic at a complete classification of our legal systems and must be conceded to rank as a real achievement."

COLUMBIA LAW REVIEW.

"The Blackstone of America."
HON. W. A. WOODS.

"It is at once clear, compact and elegant. * * * Neither Blackstone, nor Kent, nor Story, nor Greenleaf, surpasses it."

AMERICAN LAW REVIEW.

STRUCTURAL ARRANGEMENT.

Introduction. The Development of Law and Government Jurisprudence and the Systems of Legal Analysis.

Part One. The Law of Persons, Embracing Constitutional Law, Public Corporations, Domestic Relations and Private Corporations.

Part Two. The Law of Things or Property, Contracts, Personal Property, Real Property.

Part Three. The Law of Actions. A concise view of Legal, Equitable and Code Procedure, Parties to Actions, Classifications of Actions, Courts and Their Jurisdiction, Evidence and Practice.

Part Four. The Law of Crimes (untreated).

"It will take the place Blackstone has too long occupied in the study of law in America for want of such a work. Mr. Andrews has greatly overpaid his debt to our noble profession and richly earned the thanks of its members."

HON. J. W. SIMONTON,
Judge Court Common Pleas, First Pres. Pa. Bar Ass'n.

"Having had a long personal acquaintance with the author, I knew that he was no mere theorist, but a practical lawyer of ability and experience who would fully realize the needs of the practitioner. I found what I anticipated, that while he had gone to the foundations of the law and shown with admirable clearness the principles on which its rules are founded, he has applied them to the practical subjects of which the book is full so as to make the work of great utility to the practicing lawyer."

JAMES H. CARTWRIGHT,
Justice Ill. Supreme Court.

"I find it difficult to adequately express my appreciation of it. The method pursued is admirably adapted to the presentation of an accurate view of our institutions. A careful examination of various topics in which I am especially interested satisfies me that the book will be most helpful to me in my class room exercises. It is analytical, scholarly, logical, and accurate."

HON. WILLIAM K. TOWNSEND,
U. S. Circuit Judge, Professor in Yale Law School.

"I am impressed with the clearness and the comprehensiveness of the plan of the book. Mr. Andrews does not write from causal investigation of the several points discussed, but with great breadth of legal and historical learning. Many topics which it is almost impossible to get track of in ordinary works are treated with clearness in this work."

Dean Law Dept., Univ. of Iowa.
